TITLE : AUXILIARY LAMP FOR MOTORCYCLE

ABSTRACT : PURPOSE: To make a driver look a map etc., as required at the time of night travel by providing an auxiliary lamp, illuminating a driver's side, on the upper part of a fuel tank and near to a seat front end part.

CONSTITUTION: An auxiliary lamp 26 is provided on the upper part of a fuel tank 11 and near to a seat, allowing looking a map etc., as required at the time of night travel. The auxiliary lamp 26 is installed by forming a recessed part on the upper part of a fuel tank 11 and buriedly arranging an auxiliary lamp case 31 in the recessed part. The upper surface of the case 31 is covered with a lense 31a; a solar panel 32, a battery charger 33, the auxiliary lamp 26, a reflecting plate 35, a light emitting diode lamp 36, and a change-over switch 37 are provided; the battery charger 33 is charged with the solar panel 32 in the daytime ; and the change-over switch 37 is switched to a battery side as required in night traveling to light the auxiliary lamp 26.
